GCBA Members and Friends,

We hope you, your family, and your co-workers are staying safe and healthy! Fortunately, the GCBA staff can work from the office while maintaining the ability to work remotely if needed. Our families are staying safe and adjusting to a very different lifestyle! We all remain positive and know our resilience and attitudes will help expedite the recovery process.

No doubt you receive hundreds of emails with information on COVID-19. We have information, resources, and links we can share with you if needed, but rather than repeating information you probably already have our goal with this email is to let you know that we are safe and to check in with you. If you have time, we would love to hear from you and how you are doing. We know many of our members are keeping busy with projects while protecting their staff. We have heard from a number of our suppliers, and they would like us to pass along their willingness to support you; you just need to ask. Additionally, please see the links below and know the GCBA, along with the other golf organizations, are working together to protect the game. You can monitor the progress of promoting the game as a safe outdoor activity while maintaining social separation is underway on a state to state campaign.

GCBA Partners are continuing their support to the association and golf industry. Whether you need equipment, long or short term housing, shipping resources, or office supplies, know you have a wealth of resources amongst GCBA Associate Members along with our partners. Contact the office with your needs, and we can help direct you to the right solution.

Please let us know how you are doing and if there is anything we can do to help you. We remain confident that our industry will come out of this stronger; we hope you are staying positive and look forward to one day looking back at this global event with an appreciation for those that persevered by helping one another.
