The GCBAA is deeply saddened for the Stephen Nutt family. With permission from Nutt Construction, we are sharing the news below from fellow member Clay Uselton. Please keep them all in your thoughts and prayers.

Good afternoon.

It's been a rough couple of days for us at Nutt Construction and the Nutt Family, Ashley, Lucy and AB.

This will be our mass email out to everyone in our industry for information about Stephen. I'm sure I've missed some people, so please share with anyone I've missed.

Ashley is CC'd on this email, so you can reply to her through this email or privately to her if you want. If you have any stories about Stephen, Ashley would love for you to share those on this email, so she can share it with their girls.

Stephen passed away Saturday night/Sunday morning in Naples. He was sleeping on the couch, as a few of us speculated that have roomed with Stephen before. It looks like he died of natural causes during the night. We'll know the exact cause of death in a month or two when the autopsy report is completed. Stephen was down here working and getting ready for our summer projects to start. There will be a very small service next week for only close family members because of the coronavirus situation. Ashley wants to plan a large memorial service whenever this situation is over and it is safe for a large gathering. We'll let you know when that is planned.

Many of you have asked about flowers. In lieu of flowers, Ashley would like the money to go to the girls college fund. Stephen loved those girls and was so proud of them and would want nothing more than to see them succeed in life.

You can send that to...
Ashley Nutt
1705 West Lincoln Street
Tullahoma, TN 37388

ashleyanutt@gmail.com

Stephen was a great friend to many of you, and he loved being in this business. Many of you have been major keys to his/our success, and he spoke about those relationships often. Thank you to all of you for the outpouring of support. Stephen will be missed and as someone said yesterday "Only the good die young." Nutt Construction will continue and we all hope we can keep his legacy moving forward and upward.

Thanks
Clay
